What if You Woke up in the World of the Video game You last played

Written by: Samarth Iyer

What if you Woke up in the World of the video game you last played?

As you know I am a big fan of video games and RPGs. You know I am a normal guy who does normal things before bed; yep you guessed it GAMING!!!!

Day-1: so, the first day I was sitting on my chair with my sister beside me. I opened my laptop and the first game I played was Fortnite battle royale when it started, I asked my sister "ha what would it be like if you lived in a video game". My sister replied "ooh that would be boring". I played thirty-five minutes and fell asleep. The next day I woke up and found myself in a blue school bus flying in the air. I really had no clue where I was. And I knew that I don't use a bus to get to school. I clearly remember that I walk to school. Ah! I remember I played fortnite and I am in the battle bus.so I decided to land at lazy lake.

So, I got some loot, cut some trees built a house with the wood and fell asleep in my wooden house. Then I woke up the next Sunday morning and I found myself in my room. Then my mother screamed my name and said "the summer break started."

Day-2: the next day I went to my brother Pranav's house. We entered our gaming room fired our ps4s and started playing Minecraft. then we fell asleep on our chairs. The next day we woke up Pranav asked me "bruh where we?" I replied "I don't know looks more like Minecraft to me. Then we checked our backpacks and found 5000 diamonds and in front of us a workbench. Pranav replied "yeah bro we are in the world of Minecraft. Later we found a village, found a house and fell asleep in the house we found. Then both of us landed at my house on my bed. I thought I dreamt it all. But I came back home 2 times 1 was from Fortnite and the other was this strange

world.

Day 3- this process continued for 2 days and I enjoyed it so the 3rd day

I played Star Wars battlefront where I served the republic to destroy the separatist base on agamar. After I reached agamar I commanded a squad. I loved this game because it caught all my attention and it was from one of my favorite themes. A few hours later I turned my computer off and went to bed. The next day I woke up and found myself in blast-proof armor and I found Star Wars squad commander markings on my shoulders. I led the squad to the

armory of the separatist base. But We were shielded and caught we were all about to die, but my bravest soldier died. We actually made it back my wounds were so deep and I had to sleep at the med-bay. Later I woke up and found myself at my room and the doors were all closed no one suspected a thing.

Day-4

I heard that this name was viral on the net. The name was among us. I called my friend and asked him "What is among us ?" "He replied what is among the 2 of us?" I said "no-no I meant the name that is viral on the net." He said "oh that among us. It is a game where you are on a spaceship and there are 2 types of people in the game: They are crewmates and impostors The, crewmate's goal is to complete the assigned tasks and the impostor's goal is to eliminate everyone." Okee I shall try it out. I installed among us and played it. It was a very fun game I really thought whatever happened to me for the last 3 days would not happen. Later I fell asleep and I woke up and looked around me. I was on the skeld and I had to go to the reactor and stop the meltdown. I really thought to myself why does this happen??? I later won the game and I was not in the lobby I thought I'd be. I later found myself on my chair sitting. It was morning I later ate some Ice cream and it was night. I had a plan to stay longer than I usually do.

The plan was awesome.

Day-5

This night I decided to play apex legends. I started apex legends and I was playing. I had killed a lot of other players and I was on a kill streak. Man was it fun ! it is similar to battlefront so I found this easy. I almost got promoted to gold 9 but I was killed by the last guy alive. I slept comfortably until I heard a boom. I was in the world of apex legends. I knew it very well because I saw a lot of players and I saw lots of buildings I killed 9men . I was on the right track until I died. I thought that I was really dead but no

I could respawn because gamers don't die, they respawn!

APEX
— LEGENDS ™ —

Day-6 The final day

 # Finale! I wanted to save This video game for the last. That game is: ASSASSIN'S CREED! I downloaded assassin's   creed and I played it for more than 2 hours as I sailed of the island, I destroyed a British navy ship and it was really a long game going into villages killing people who want to attack me and more. I died soon after I killed the French admiral. I woke up in my room. On my bed. I went downstairs for breakfast and spoke to my mother about what had

happened to me every night. My mother believed me and gave me my breakfast. To my surprise it was bread and cheese so I ate breakfast at the dining table with my grandparents. I shared my experience with them.

About the author

Samarth is an avid reader and fantasizes about his readings. His favourite way of

spending time is playing videogames, reading about them and write about them as well. The way he pens his imagination is quite interesting and as his mother I enjoy it thoroughly. He loves to watch and play cricket. He has also written few short writeups about cricket and his favourite cricket stars.
